

BLUEGREEN INITIATIVES

Opportunity for an internship, co-op, seasonal full time gardening placement is available for student or graduate from a horticultural program in college or university. This is a paid position.

Working in this beautifully appointed place of retreat on the stunning eastern lakefront of Georgian Bay you will have many opportunities to put to practice what you have learned and to advance your horticultural experience.

The beautiful gardens of Bluegreen are both ornamental and culinary with native plantings extending to the dunes. It has unique attributes and challenges due to it's sandy location and is managed chemical free.

Apart from the inevitable maintenance tasks the candidate may be involved in many of the following opportunities

- *spring clean up
- *seeding and planting out the vegetable and cutting garden
- *moving of plants and shrubs and soil amendment and pruning
- *plant ID and labeling
- *preparing and staffing gardens for open garden events and workshops
- *interaction with guests at a professional level
- *pest management
- *harvesting vegetables, fruits and herbs and interaction with chef
- *plant propagation
- *Houseplant maintenance

The location (15 minutes south Midland, 40 minutes from Collingwood and Barrie) offers interesting free time opportunities in the area for ecological enthusiasts as it is not too far from Tiny, Minesing and Wye Marshes as well as the Simcoe Forest, and the beaches and dunes of Eastern Georgian Bay. Own transport advised.
