Defined by Character

LANDSCAPE HORTICULTURALIST / GARDENER POSITIONS

As the premier landscape design/build and maintenance firm in Southern Ontario, Cedar Springs Landscape Group Inc. is seeking candidates who have the skills and passion for maintaining high end landscapes for our esteemed clients.

We don't simply refer to our craft/service offering as landscape maintenance, rather Cedar Springs' team members are Client Care professionals. We service client properties in all areas of landscape horticulture: especially high end gardening, planting, plant care/pruning, revitalization and restoration. We aren't limited to these functions, but also include maintenance of hardscape, softscape and outdoor structures and elements in our landscapes.

Does a career as a Client Care professional interest you? Do you have a passion for the green industry and customer service?

Contact us today to learn more about joining our team in a variety of full-time or seasonal capacities!

Please apply by email to Adam VanHof, General Manager. adam@cedarsprings.net
