

Established landscape company for sale – in Downtown Toronto

After 13 years with fantastic clients, it's time to retire. I am now looking to sell the business (client list). I've run this business with 2 or 3 staff each year and we've always been very busy.

My clients are very loyal and some have been with me from the very beginning. I offer high-end garden maintenance, and landscaping services. I have not involved myself with lawn services, but many of the existing clients would welcome lawn services as well, if you were to offer it. We've maintained and installed gardens, built fences, decks, stone patios, retaining walls, and walkways.

This would be a great opportunity for an experienced person to start out on their own, or for an established company to add some great new clients. All my clients are located in Toronto proper (Dundas st. north to Lawrence, Bathurst to Victoria Park). Please contact me at 416-522-9662 for more information.
