Job Description:

The Boekestyn family has been growing quality, potted flowers since 1962. Now on their third generation, the Boekestyn's have almost 20 acres of land with about 250,000 sq ft of indoor production.

Job Duties:

- Responsible to monitor crop production, timing, and quality to meet customer expectation
- Ensure crop watering standards are met
- Monitor pest and diseases
- Mix and apply fertilizers and conduct spraying as needed
- Recognize symptoms and adjust to growing conditions
- Hands-on supervision of crop work
- Working with staff to ensure quality and efficiency
- Some general maintenance jobs
- Other jobs as required

Requirements:

- Minimum of a diploma in horticulture or a related study
- Speak and write in English
- 1-2 years experience would be an asset
- Physically capable
- Strong team player
- Great communications skills
- Attention to detail and documentation

Please send cover letter, references, and resume by fax at 905-562-3814 or email to edb@boekestyn.com. Thank you for your interest, however only those selected for an interview will be contacted.
